

Dear friend

WELCOME! PlusAbroad provides inclusive as well as customized cultural and adventure travel tours and programs combining education and entertainment for active adults.

On behalf of our Spain-based staff, we consider it an honour to enjoy with you a life-changing experience. Our on-site Program Directors call your destination home and they've got the insider's edge to help you peer deeply into local culture.

These senior adventure trips for active, small-group experiences in Europe go to prove edutainment makes it easy for baby boomers to embrace new experiences.

Inspired by the common consciousness that nearly all adults are motivated by self-fulfillment, a mixed group of Spanish and American business people, with years of experience in international education and culture, founded PlusAbroad where the "plus" is that each theme excursion also provides excellent educational content.

What's more, you won't find a more comprehensive list of included highlights, for much less than you'd pay elsewhere, if you could find anything remotely similar in conception. All our programs and tours balance scheduled activities with free time to explore at your will.

Our programs focus on subjects such as art, culture, cuisine, cinema, wine-tasting, language learning, yoga, music or low-impact sports such as cycling or walking/hiking in Spain and Holland.

We look forward to see you at one of our programs.

The PlusAbroad team
